

# INTER-COMPANY TRAINING

## DESIGN OF DESCRIPTIVE PROFILE QUESTIONNAIRE

### Target:

Occasional or regular FIZZ users who wish to use the software to set up descriptive profiles.

### Objectives:

To provide participants with the knowledge and methods needed to build Fizz questionnaires containing descriptives tests. The training will focus on examples corresponding to the classic activity of a sensory analysis service.

### Content:

Introduction: Presentation of FIZZ software

1. Creation of a simple profile questionnaire
2. Modification of the questionnaire
  - a. Addition of intermediate screens
  - b. Customization of the scales using the attribute file
3. Copy from a template and adjustment of the number of samples
4. Data Collection

### Duration and format:

The training lasts 3 hours and is conducted online.

The use of two screens is recommended, one to follow the training and one to practice. The training is based on the latest version of the software, the options and functionalities may be different if you are not using the latest version.

### Number of participants:

For the comfort of the participants, each session is limited to a maximum of 4 seats.

### Price:

375€/participant (then 260€/additional participant from the same company)
