INTER-COMPANY TRAINING
DISCRIMINATIVE TESTS:
from test building to result analysis

Target:
Occasional or regular FIZZ users who wish to use the software to set up and analyse discriminative tests.

Objectives:
To provide participants with the knowledge and methods needed to build Fizz questionnaires containing discriminative tests and to analyse the results. The training will focus on examples coresponding to the classic activity of a sensory analysis service.

Content:
Introduction: Presentation of FIZZ software
1. Triangle test
2. Tetrad test
3. Ranking test

For each of these 3 tests: Creation of the questionnaire, Data collection and Statistical analysis of the results.

Duration and format:
The training lasts 3 hours and is conducted online.
The use of two screens is recommended, one to display the training presetation and one to practice. The training is based on the latest FIZZ version , the options and functionalities may be different if you are not using it.

Number of participants:
For the comfort of the participants, each session is limited to a maximum of 4 seats.

Price:
375€/participant (then 260€/additional participant from the same company)
